# Deprecation of POP3 and Real-Time Webhooks

The legacy POP3 polling worker from v1.0 is officially DEPRECATED.
Incoming emails must now be routed via SendGrid Inbound Parse or Mailgun HTTP Webhooks.
Maximum attachment size has been increased to 25 MB.

# Live Chat Widget and Slack Integration

NexaDesk v2.0 introduces omnichannel communication:
- Web Live Chat Widget for customer websites.
- Slack Support App allowing agents to respond to customer inquiries from Slack.
